

Brushed Silver

Polished Copper

Description	Stainless Steel
Style	Tile
Tile Size	3", 6", 9" and 12" (7.62 – 30cm)
Thickness	.25 (.6cm)
Application	Interior, Vertical

During manufacturing, the stainless steel disks are adhered to a square tile backing. This leaves some areas of the tile exposed and sensitive to surface pressure. As a result, we do not recommend these tiles for floor applications.
