*During manufacturing, the shells are hand sorted into matching colors and sizes and individually glued onto backing. The sheets of tile can be trimmed to any shape and are flexible to allow contouring when necessary. It is not unusual to find occasional imperfections, veins, and lines of separation within the shells. As seashells are a product of nature, color will vary from lot to lot. This variation is considered to be a desired feature in the product. Contact SOLI for a sample of our current assortment.*
